1. Claims 1, 3, 5 and 6 are pending. Claim 1 has been amended. Claim 2 has been canceled. Applicants' claim to foreign priority from application JAPAN 2004-082144 filed March 22, 2004 is acknowledged. Applicants' amendments, arguments, and Request for Continued Examination (RCE) filed June 14, 2010 have been entered and carefully considered.

Reasons for Allowance

2. With regard to the prior rejection of claims 1 through 3, 5 and 6 under the 35 U.S.C. 103(a), Applicants have amended claim 1 to require that the titanasilicate is a Ti-MWW precursor and have canceled claim 2 outright. Applicants further argue that Wu et al. teach away from the instant invention. Applicants' amendment and arguments are found persuasive. On review of the XRD, the differences between the calcined and precursor Ti-MWW are significant, and the precursor is now a requirement of amended claim 1. Furthermore, Wu et al. do state a lower activity for the precursor toward 1-hexene, and thus may be construed as lower activity toward linear alkene substrates. Therefore, the rejection of claims 1, 3, 5 and 6 as obvious over Wu et al. in view of Abekawa et al. is hereby withdrawn.

3. The amendment to claim 1 introduces no new matter and is supported by the specification. The claimed invention is neither anticipated, nor obvious over, the prior art.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to David E. Gallis whose telephone number is 571-272-9068. The examiner can normally be reached on Mon-Fri 7:00-4:00.
